ARMOURLUX
COMMUNICATE PROTECT DELIVER

ArmourLux500

The Right Solution

ArmourLux500 meets the demands of mobile fibre optic communication, for media, audio, security, data...and more. Despite the variety of uses the requirements are often similar - a re-usable fibre cable that is easy to deploy, retrieve, connect, transport and store, over and over again. **ArmourLux500** addresses all of these needs.

So what's Unique about ArmourLux500 LC-MAX?

It is an LC connector designed specifically to be used with Tactical deployable fibre, where high cable retention and durability are important. The metal body and latch provide a secure connection and the IP68 protective metal cap keeps out water and dust; it's streamline design also ensures a snag-free retrieval. The **LC-MAX** is 100% compatible with standard LC sockets, connecting to your equipment without the need for an adapter cables or bulkhead. The Military inspired Tactical fibre manufactured by Belden is durable and suited to repeated retrieval and deployment.

Buy with Confidence

All **ArmourLux** assemblies are made in the UK. We're also an ISO9001 accredited company, where quality and customer service are our highest priorities. With over 20 years experience as a trusted provider of fibre optic cables, you can be reassured we understand the requirements of mobile fibre optic communications.

The **LC-MAX** Connector

The LC-MAX is 100% compatible with standard LC sockets, connecting to your equipment without the need for an adapter cables or bulkhead.
